

Muhammad Bilal Bacha

Front End Engineer | Angular · React · Vue.js

Koblenz, Germany | +49 15233922203 | bilal.bacha.dev@gmail.com | linkedin.com/in/muhammad-bilal-8a21ab235

PROFILE

Front End Engineer building secure, high-performance web applications for fintech products. Specialized in Angular, React, Vue.js, and micro frontends, with strong expertise in TypeScript, JavaScript, HTML, and CSS. Experienced in delivering responsive, accessible interfaces that improve the customer experience in financial products, working in agile teams and collaborating closely with designers, backend engineers, and product owners.

TECHNICAL SKILLS

Front End: HTML, CSS, JavaScript, TypeScript, Angular, React, Vue.js (2 & 3), Next.js, Nuxt.js, Micro Frontends, RxJS, NgRx, Redux, Tailwind CSS, Bootstrap, Material UI, Angular Material

Back End: Node.js, Express.js, NestJS, TypeORM

Databases: MySQL, PostgreSQL, SQL, Firebase, MongoDB

Tools & Cloud: Git, GitHub, Azure DevOps, AWS Lightsail, webpack

WORK EXPERIENCE

Software Engineer | Freelance / Self-Employed

09/2025 – Present

Client projects for startups, including Koder Consulting and Otubucks (UAE)

- Built responsive websites and admin panels in React.js with clean, reusable component architecture for startup clients
- Designed and developed RESTful APIs in Node.js serving web, iOS, and Android applications
- Improved website load performance for Otubucks (UAE) by optimizing the webpack build
- Deployed and maintained applications on AWS Lightsail, monitoring uptime and resolving production issues
- Refactored code and optimized database queries to improve stability and performance

Front End Developer | Convera, United States

04/2025 – 07/2025

- Built a payment gateway Micro UI from scratch in React.js, embedded by business clients in their websites and apps so their customers can pay fees or pay through their Convera account
- Maintained and improved an existing AngularJS application, resolving issues in close collaboration with QA
- Developed reusable, modular components in TypeScript, JavaScript, HTML, and CSS, with a focus on performance and cross-browser compatibility
- Worked with designers, product owners, software architects, and scrum masters in an agile team to shape UI and UX decisions
- Delivered secure, responsive interfaces for financial transactions in a regulated fintech environment

Front End Developer | Sigma Digital Solutions, Islamabad, Pakistan

05/2023 – 04/2025

IT services company delivering web projects for clients of its sister company Spiral Click (UAE)

- Built seadubai.com with React.js and Material UI, integrated with a Node.js back end; the site is live in production
- Developed the Vue Storefront e-commerce front end for bedquarter from scratch, connected to a Magento back end
- Built the Vue.js front end for lafonda, integrated with a PHP back end
- Developed and maintained Angular applications in TypeScript, using Angular Material and NgRx for consistent design and reliable state management
- Delivered responsive, accessible (WCAG), cross-browser interfaces, using Redux and Context API for state management in React projects

Front End Developer | Genesis Engineering, Islamabad, Pakistan

12/2022 – 12/2023

- Built Angular web applications from scratch for US clients, using TypeScript, SCSS, Tailwind CSS, and Bootstrap
- Migrated legacy static websites to Angular, improving performance and maintainability
- Delivered responsive, cross-browser compatible interfaces and carried out QA testing to improve accessibility and usability
- Communicated directly with US clients across time zones to clarify requirements and deliver on schedule
